ROBOTIC SURGERY Navigating the Role of Nurses

The development in Robotic Surgery has revolutionized the forte of Contemporary surgical practice. We are in the threshold of a paradigm shift in peri-operative nursing with the growing boom for robotic nurses. The Apollo Hospitals group, a leader in world class health has added momentum to this revolution in India, through its many "first of its kind" breakthrough surgeries in Colorectal surgery, Urology, Spinal and Gynecologic Surgery. In the very near future robotics is simply going to be the way surgeries are performed, and for nurses looking to align their perioperative careers with the future, training for robotic surgery is paramount.

With this futuristic vision, Apollo College of Nursing, Chennai is organizing the state level capacity building seminar on , " **Robotic Surgery Navigating the Role of Nurses**". This seminar will be a platform to bring the expertise of surgeons and rich experience of Surgical nurses to develop in-depth understanding of the complexities of robotic surgical programs, to appraise our role as team leaders and robotic nurses in carving robotic surgery as niche area of scope for nurses. Come, learn and incorporate innovative technologies into the learning milieu to prepare nurses for the future.
